The Korean Ministry of Education evaluates very highly of the work of the four existing universities that have been part of the AIMS since 2016, especially their work to promote student exchange in AIMS. In this context, the ministry had decided to select more universities to advance the wonderful outcome of AIMS even further. And it was the kind assent made by the AIMS partner countries and universities that has made this additional selection of universities possible.

The Korean Ministry of Education will continue to do its best to ensure that the AIMS Programme reaches its ultimate goal of promoting cooperation in the field of higher education in ASEAN. Once again, I would like to take this opportunity to express my great appreciation for your support.

Sincerely yours,
